DETAILED ACTION
EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Curtiss C. Dosier (Reg#46,670) on 09/17/2008.

IN THE CLAIMS

Please amend the claims as follows:

Claim 5. **(Currently Amended)** The delivery device of Claim [4] 1, wherein said at least one internal wall is defined by a seal between said impermeable layer and said semi-permeable layer.

Claims 7.-16. **(Cancelled)**

Allowable Subject Matter

Claims 1-2, 5-6 and 25-31 are allowed over the prior art of record as amended in the 07/22/2008 reply.

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose either singly or in combination the claimed device of a fluid delivery device for transdermal delivery of fluid medications to patients; the device being formed from a thin envelope which is applied to a patient's skin. The envelope comprises at least one diffusion layer

coupled to at least one impermeable layer such that at least one chamber exists therebetween. The delivery device also includes additional internal diffusion layers that create additional internal chambers and a valve positioned in the internal layer that facilitate filling the device with fluid, as well as connection of the device to external fluid sources.

The closest prior art of record is Reed, Jr. (USPN5,827,530) and Weston et al. (USPN4,605,399), however these references do not disclose the device as claimed or described above.

Regarding claims 1 and 28, the closest prior art of record fails to teach among all the limitations or render obvious the fluid medication delivery comprising a plurality of internal layers for fluid control located within the fluid reservoir.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
